All, the reporter already sent this to R8, but is this for the region or for HQ? Please advise?

Also, the reporter says she's on a 5 PM DDL.

"Hope you're both well. I have a 5 p.m. deadline for this. There is language on EPA's website that says EPA directly implements the SDWA UIC permitting Class VI Program nationally, except for the State of North Dakota. I know that North Dakota applied for primacy in 2013, but as of right now I did not think that had yet been approved.

Can you explain? Who would have primacy to issue class VI permits right now if someone were to apply for a permit in North Dakota?

Many thanks,"
